

AECON CIVIL & UTILITIES

Aecon Utilities

BLOOR FROM PARK TO BEDFORD, TORONTO

CLIENT:

Bell Canada
Expertech Network Installation Inc.

ENGINEER:

Plantec Consulting Engineers

CONTRACT VALUE:

\$2.1 million

PROJECT LOCATION:

Bloor from Park to Bedford
Toronto, ON

CONSTRUCTION PERIOD:

Jan 31, 2005 to June 3, 2005

PROJECT DETAILS:

This project between Aecon Utilities and Expertech Network Installation (subsidiary of Bell Canada) consists of building a new underground conduit system through a very hectic downtown core.

The project consists of rebuilding three existing underground manholes and placement of four new manholes, connected by a conduit system with an average size of 24 ducts, stretching 1.3 km, making this the largest, single communication project of this year.

This project was scheduled to take four months to construct and was completed one month ahead of schedule.
