

**SUBJECT: SUPPLIER CODE OF CONDUCT**

## 1. SCOPE

This Supplier Code of Conduct (the “Code”) applies to suppliers of goods and services, including their representatives and employees (together “Suppliers”), to Aecon Group Inc. (“AGI”) or its subsidiaries and their operating divisions and joint ventures (collectively, “Aecon”);

## 2. PURPOSE

Aecon is committed to conducting business in an ethical, legal and socially responsible manner. The strength of Aecon’s business and reputation is based not solely upon its conduct, but also on the behaviour of those with whom Aecon conducts its business. Aecon aspires to work with suppliers who share its core beliefs, values and commitment to performance with integrity and who demonstrate a commitment to protecting its confidential information.

This Code reflects the core values, beliefs and business practices of Aecon and its expectations of suppliers, contractors, consultants, agents and other suppliers of goods and services (collectively, “Suppliers”) when conducting business with, for and on behalf of Aecon.

Compliance with this Code is a fundamental requirement of all agreements between Aecon and its Suppliers whether or not specifically referenced by or incorporated into those agreements. Suppliers are required to comply with this Code and to ensure that its employees and representatives understand and comply with this Code. Failure to adhere to this Code may be grounds for termination of the supplier relationship and any related agreements.

## 3. AECON’S CORE VALUES AND BUSINESS PRACTICES:

### 3.1 SAFETY AND SUSTAINABILITY

Suppliers must have an established health and safety policy and program that meets applicable legislative requirements and promotes best practices and continuous improvement. Where the Aecon Environmental Health & Safety program exceeds the standards of the supplier, Aecon safety standards and applicable health and safety laws and regulations will be followed while attending Aecon’s offices and job sites. Suppliers must encourage their employees to be actively involved in the improvement of their health and safety and establish an expectation that the only acceptable result is everyone returning home safely every day. Additionally, Suppliers can help strengthen Aecon’s commitment to safety by immediately reporting to appropriate management any potentially unsafe condition, behaviour, accident or injury or any environmental or safety concern.

Suppliers are expected to register and maintain an account on the Aecon subcontractor prequalification database prior to providing services to Aecon.

Aecon promotes a zero tolerance policy for the use of drugs or alcohol in our workplaces. While on Aecon premises, working on behalf of Aecon or otherwise representing or being seen as representing Aecon, Suppliers are not allowed to be impaired by alcohol or drugs or in possession of alcohol or illegal drugs.

Aecon expects Suppliers to work with us to promote environmental sustainability, and conduct business in an environmentally responsible way to ensure compliance with applicable standards, laws and regulations.

Suppliers are expected to embrace the value of “Safety First” and understand that Aecon views safety performance and safety culture of our suppliers as a condition of providing service.

### **3.4 EMPLOYMENT PRACTICES**

Suppliers must abide by applicable employment standards, labour, non-discrimination and human rights legislation. Where laws do not prohibit discrimination, or whether they allow for differential treatment Aeon expects Suppliers to be committed to non-discrimination principles and not to operate in a way that differentiates unfairly.

### **3.5 AVOIDING CONFLICTS OF INTEREST**

In Suppliers' relationship with Aeon's employees, Suppliers must not try to gain improper advantage or preferential treatment for other relationships they may have with Aeon (for example, as a client).
