**GREEN ENERGY**  
Solutions

Aecon is the country's largest multi-discipline utility contractor. We have a long history of helping our clients connect and power our communities, and a clear vision of building what matters to enable future generations to thrive.

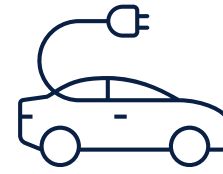

**When it comes to the green energy transition, Aecon is dedicated to meeting the diverse needs of both commercial and residential partners.**

From EV charging to geothermal systems, we provide a range of green energy capabilities supported by in-house design and engineering, trusted industry partnerships, and proven track record of complex turnkey delivery.

All this makes us uniquely positioned as a trusted, end-to-end solutions provider in today's rapidly evolving market.

Aecon  
**GREEN ENERGY**  
Solutions

**Reducing GHG emissions  
and our carbon footprint is  
good for the environment  
and for business.**

**No matter what kind of  
infrastructure you need,  
we can connect you.**

**FOR YOUR  
FLEET**

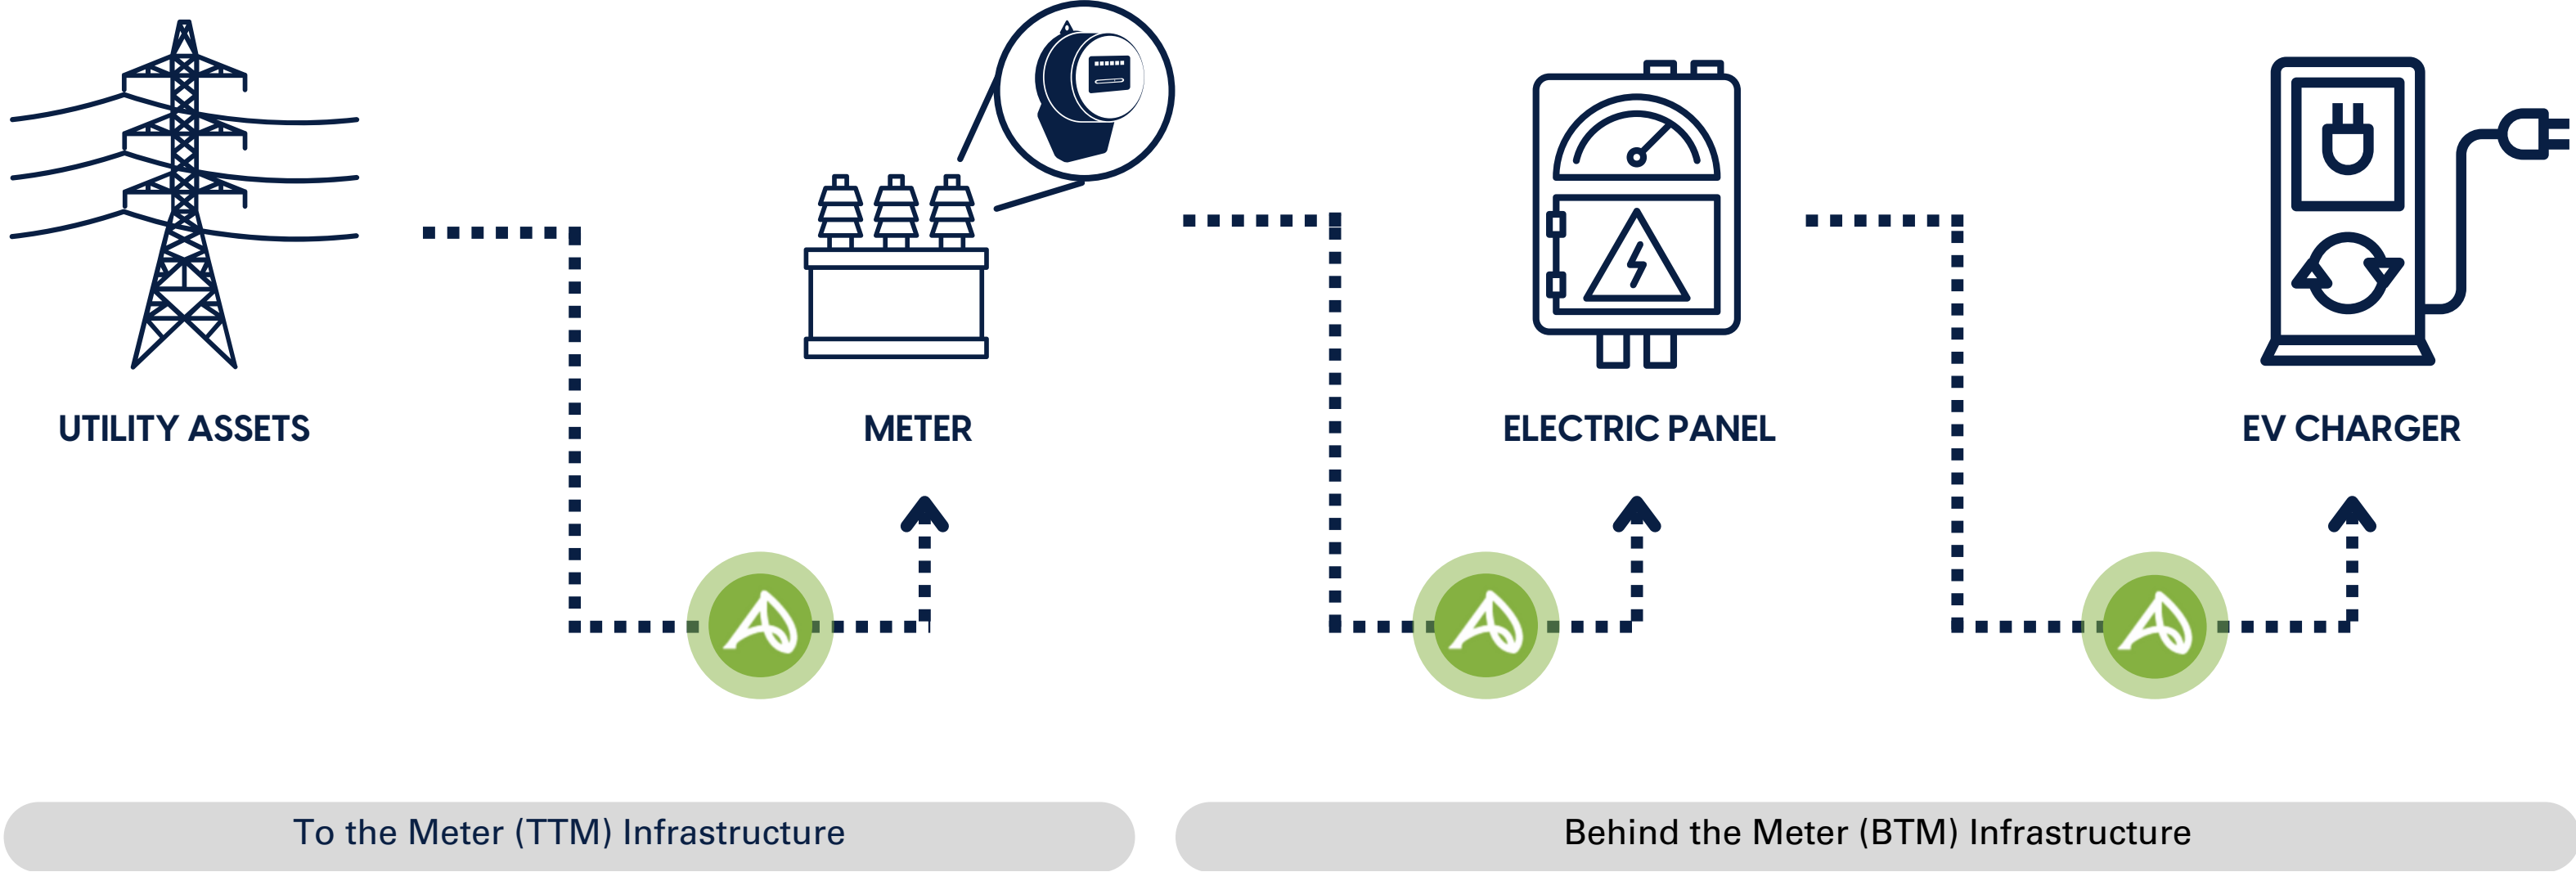

**FOR YOUR  
CUSTOMERS**

**FOR YOUR  
HOME**

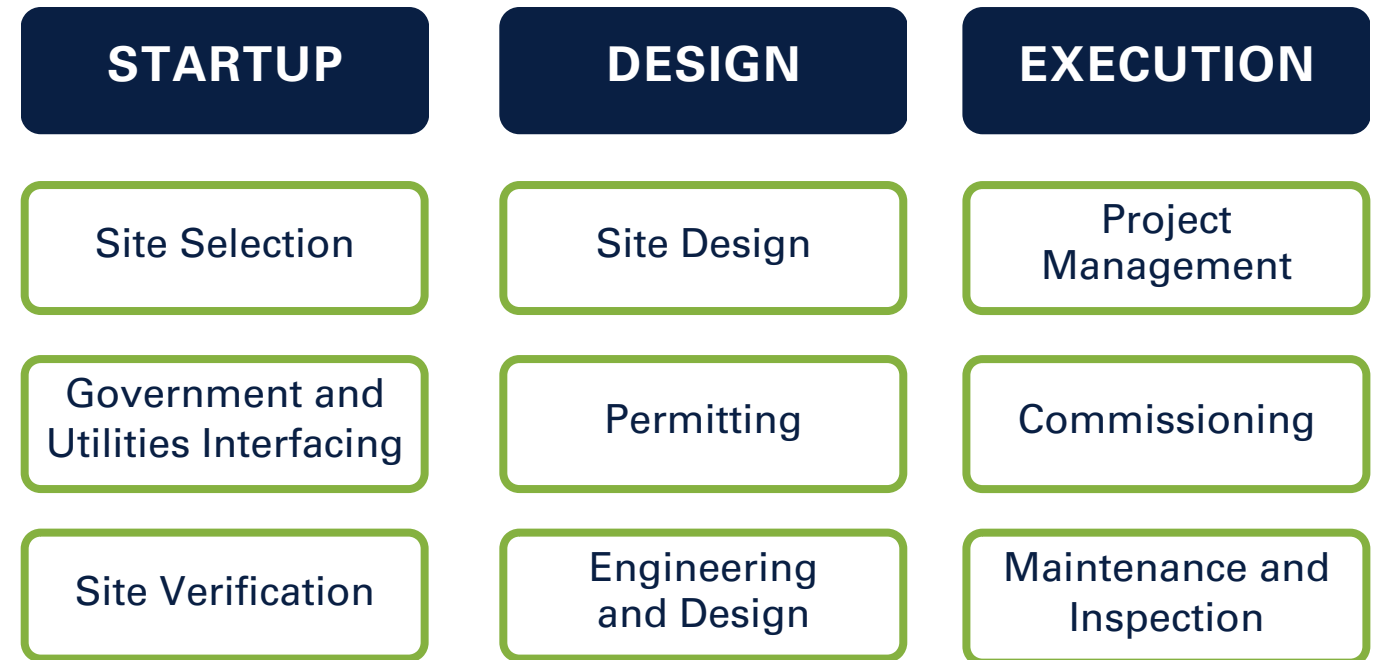

**As an end-to-end provider, Aecon makes the connection from energy source to commercial or residential vehicles to help you and your customers transition to a cleaner, more cost-effective future.**

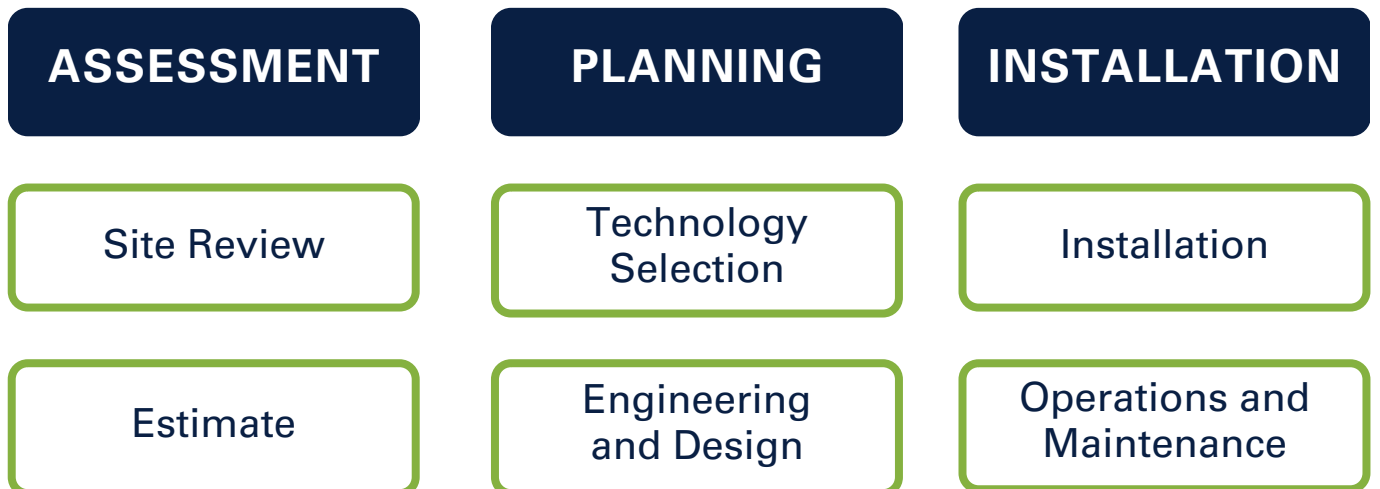

**We have the knowledge, resources, and experienced networks to navigate the transitional steps - whatever your needs - and ensure your EV Charging programs stay on schedule and on budget.**

## FLEET ELECTRIFICATION

## RESIDENTIAL PROGRAMS
